

The University of Idaho and Washington State University (Pullman) have developed a cooperative parking arrangement for the purpose of enhancing the accessibility to either campus for students, faculty and staff **participating in cooperative programs and cross listed courses**. Selected parking permits from each university have been deemed valid in specific parking areas. Washington State University satellite campus parking permits are NOT valid on U of I campus.

Washington State University Parking Services uses "virtual permits" and license plate recognition (LPR) for enforcement on the Pullman campus, while U of I requires the use of physical parking permits, which are displayed in the lower corner of the driver's-side front windshield.

Important information for WSU students, staff and faculty who require parking at U of I to participate in cooperative programs or cross-listed courses:

- **WSU students, faculty and staff are required to [apply for a reciprocal parking permit](#) to park on the U of I campus.**
- Each application will be verified with WSU Transportation Services for accuracy.
- WSU annual permit holders who are deemed eligible to park at U of I will receive a U of I reciprocal parking permit.
- The permit must be displayed in the lower corner of the driver's side front windshield when parking on the U of I campus.
- Each reciprocal parking permit issued by U of I will be valid for the duration of the WSU permit (typically through July 31 each year). Reciprocal parking permit holders are required to re-apply each year they would like to park on the U of I campus.
- Both U of I and WSU parking and transportation personnel will closely monitor this process and would like to hear your feedback.
