Money Skills for Life

A proverb states that, “Experience is the best teacher.” This program is designed to give your students experiences making college decisions and finding a way to pay for them. Through the eyes of eight characters, each with different backgrounds and interests, your students will experience the consequences of wise and unwise student-loan decisions. It also helps students explore alternatives to student loans and the benefits of considering the long-term impact of educational decisions.

Program Features

- Designed for Teens Ages 16-18
- Teacher-Friendly Program and Materials
- High Level of Student Engagement
- Target Concepts: Avoiding Student Loans, FASFA, Work Study, Scholarships, Work-as-you-go, College and Major Options
