

University of Idaho 2025 – 2026 Faculty Senate Agenda

Meeting #05

Tuesday, September 16, 2025, at 3:30 pm Zoom Only

- I. Call to Order
- II. Approval of Minutes (VOTE)
 - Minutes of the 2025-2026 Faculty Senate Meeting #4 (September 9, 2025)
 Attach. #1
- III. Chair's Report
- IV. Provost's Report
- V. Invited Guest Presentations
 - Impact of Spread Pay on Summer Grant Funding Diane Kelly-Riley, Vice Provost for Faculty.
- VI. Committee Voting Items and Reports
 - Committee on Committees (VOTE) Kristin Haltinner, Chair of Committee on Committees.
 - Updated Standing Committee Roster. Attach. #2
- VII. Other Policy Business
 - APM 45.17 Fixed-Price Sponsored Projects Arch Harner, Assistant VP for Research Administration. Attach. #3
- VIII. Other Announcements and Communications
 - Committee Charges Kristin Haltinner, Vice Chair of Faculty Senate. Attach. #4
 - IX. New Concerns or Issues
 - X. Executive Session
 - Faculty Secretary Nominating Committee (VOTE) Ratification of Faculty Secretary nominees.

XI. Adjournment

Attachments

Attach #1

2025 – 2026 Faculty Senate – Pending Approval

Meeting # 4

Tuesday, September 9, 2025, 3:30 pm – 5:00 pm Zoom only

Present: Barannyk, Borrelli, Erickson, Hagen, Haltinner (vice chair), Harrison, Hu, Kenyon, Kolios, Lawrence (provost, w/o vote), Long, Maas, McKenna, Murphy (chair), Ramirez, Remy, Rinker, Rivera, Roe, Sammarruca (faculty secretary, w/o vote), Shook, Strickland, Thorne, Tohaneanu, Vella, Victoravich **Absent:** Harrison, Miller

Call to Order. Chair Murphy called the meeting to order at 3:30 pm.

Approval of Minutes (vote)

• Minutes of the 2025-2026 Faculty Senate Meeting #3 (September 2, 2025) were approved as distributed.

Motion (Long, Shook) to amend the agenda to have the priority-setting vote moved up to the second item in Other Policy Business. There is a proposal for an item that's also one of the priorities to be ranked and, therefore, it makes more sense to consider the priorities before we consider approving the proposal.

Vote on the motion: 19 yes; 1 no.

Chair's Report

- There are challenges with Inclusive Access textbooks. Some students are still not able to access
 their textbooks. Tim will try to understand the full scope of the problem before inviting to
 senate someone who knows what's happening.
- Chad Nielsen followed up from last week's meeting, when he was asked to give us a list of schools' websites they used as reference for our website update. Anyone interested in seeing that list can ask Tim for it.
- Several people felt that the last week discussion on the website was not promising about reaching some form of resolution in the short term on many of those issues, which are quite substantial for instance, our public-facing academic credentials are not available. Some student clubs have completely lost their web presence and have been unable to recover it. These issues go to the core of our public presence as an academic institution and as individual academics. If anyone is interested in driving some action, such as moving forward with a resolution to debate and vote on at Senate, they should reach out to Tim for support. Discussion

Other senators shared similar frustration with the difficulties they encounter to find information. The website was launched too quickly, on the Friday before classes started, with no consideration for the impact on faculty and staff. The general sentiment was that the current situation is unacceptable, and something needs to change.

A senator from the Library pointed out that the library preserved the old website in the Wayback Machine. It's not a perfect solution, but the older information is still accessible.

Provost's Report

- Link to the State of the University address, which some senators couldn't locate on the president's page: https://www.youtube.com/watch?v=Lp3 Sj4BkAU&t=3219s
- Provost Lawrence recommended to keep raising concerns. In the meantime, UCM is putting
 together a group to look at the content of faculty profiles, and another group to investigate the
 graduate programs and how they're portrayed and presented on the new webpage.
- Some people asked whether changes to the salary system for faculty on deferred pay were implemented correctly. Faculty, whether fiscal year, academic year, or deferred pay, are being paid correctly, but there is a misunderstanding about the details and the changes that this body approved last year. The biggest change was going from 19.5 pay periods to 20 pay periods, thus slightly stretching people's salary. All is being done correctly, but to improve understanding, some examples of how it works compared to last year will be shown at the next meeting. Link to U of I Deferred Pay information: https://vandalsuidaho.sharepoint.com/sites/InsideUI-Vice-Provost-Faculty/SitePages/Deferred-Pay-Implementation.aspx
- Program Health Review. A program prioritization process is required every 5 years by the State Board of Education, so it must be done this year. The process will be very different from the past. A memo will go out in the next few days with the main purpose of asking for nominations of people to be on a working group.
- Importance of VandalCARE referrals for students. Within these first 3 weeks, we have had 4 suicide attempts, one of them resulting in death. None of these had been identified as students at risk. If faculty or staff see students that are struggling or in need, they should use the VandalCARE system. It works very well. VandalCARE referrals: https://www.uidaho.edu/student-resources/dean-of-students/vandalcare. Please share with your colleagues.
- CLASS Senator Craig Miller has a solo theater performance this weekend. It is a theater
 production called *Every Brilliant Thing*, that explores themes around mental health awareness
 and suicide. Some of the reviews describe it as one of the funniest plays ever written about
 depression. It is Friday night at 7.30pm, Sunday at 2pm, both at the Forge Theater, in the CLASS
 Annex building.
- The September Faculty Gathering, hosted by the Provost's Office, will be held on Wednesday, September 17, 2025, from 4:30-6:30 PM, in the IRIC Building Atrium on the Moscow campus. Please complete this RSVP Form if you plan to attend.

Discussion

A senator asked whether the president and higher administration plan to release a statement regarding COVID vaccination. Provost Lawrence said he has not discussed this with the president but there are other discussions on campus about new vaccination limits. Changes in vaccine availability are complicated and still unclear, but there is more to come.

Back to the deferred pay system, a senator reported that, in their college, grant-paid summer rates were calculated incorrectly, which might have started the confusion about incorrect deferred-pay salaries.

A senator suggested considering a four-day weekend in October and two workdays at the beginning of the Thanksgiving week. In this way, people would have a midsemester break, with no other changes needed to the academic calendar. The provost responded that such a change could be considered by senate if it is a priority.

Invited Guest Presentations

 Overview of the Outdoor Program – Sandra Townsend, Outdoor and Youth Programs Director, Recreation and Wellbeing, Division of Student Affairs.

Sandra wants to promote awareness of the services offered by their program. She introduced the program trip schedule and the many resources to facilitate outdoor experiences for students and employees. For instance, they take all the WWAMI first-year students out rafting. They help with CNR classes, outfitting, and teach classes on fitness and RSTM. They offer a variety of teambuilding activities, including a couple of trips that are free of charge. They look forward to exploring more opportunities to connect with folks and get them outside to enjoy the natural beauty around us.

Discussion

To the question of whether the program serves the U of I at all its location statewide, Sandra responded that they can, if the logistics works out.

Sandra also encouraged everyone to take advantage of the cheap membership to the Student Recreation Center through payroll deduction.

A senator asked what the costs of the trips are used for. Sandra said that those fees go to pay their employees, gas for their vans etc. Fees to rent outdoor equipment are used to purchase equipment.

Committee Voting Items and Reports

- University Curriculum Committee (vote)
 - UCC 163 Change to Admissions Requirement Steve Shook, Senator from CNR.
 The main point of the proposed revisions is to allow students with GPA below 2.60 who have been admitted through VGP to appeal for direct admission. Currently, students with a GPA below 2.30 can appeal to the Admissions Committee for direct admission. It's a small tweak, but UCC thought it was more of an equity issue to allow the students who are in the 2.3 to 2.59 GPA to have the same opportunities as those who have GPAs lower than 2.3.

Discussion

There were a few requests for clarification.

Vote: 20 yes; 1 no. Motion passes.

- Committee on Committees (vote)
 - Faculty Compensation Committee (FCC) roster Kristin Haltinner, Chair of the Committee on Committees.

This committee was newly created last year and was populated this fall. Consistent with FSH 1640, the representation is broad and inclusive of work locations outside Moscow, diversity, tenure status, faculty classification, primary academic home, and years of service at the university.

Discussion

There was a comment about one college not being represented. The reason is that there are more colleges than seats, and nobody volunteered from that college. The senator also inquired about representation of the administration, which was initially talked about. Kristin showed the list of ex-officio members, who are not on the roster to be approved because they're not placed by faculty senate. They are Brandi Terwilliger, Director of Human Resources; Vice Provost Kelly-Riley as the provost designee, and Kim Salisbury as Vice President Brian Foisy's designee.

The committee is open to anyone who wishes to attend.

Vote: 21/21 yes. Motion passes.

Other Policy Business

- Interim policies in effect
 - o FSH 3060 Affirmative Action and Equal Opportunity
 - FSH 3065 Affirmative Action and Equal Opportunity Employment Hiring
 - o APM 50.01 Hiring Procedures for UI Exempt Employees
 - o APM 50.02 Hiring Procedures for UI Classified Employees

This is a notification item. The above policies were approved by President Green on an interim basis, because of immediate need to be compliant with the law. They will go through the standard approval procedures.

Priority Setting (vote) – Tim Murphy, Faculty Senate Chair
 Tim displayed the list of priorities as from the survey that went out, to which 16 senators responded, and gave an update on the work already done/in progress on some of the items.

Pay, salaries etc. FCC was just formed.

<u>Accommodation issue</u>. This was referred to the Teaching Committee, who met with representatives from CDAR and OCRI. Ultimately, the recommendation was for additional faculty training, which many people didn't find to be a satisfactory solution. We may look at this area again.

<u>Health benefits.</u> There was some preliminary discussion on whether other state employees have a better benefits package than employees at U of I. It's important to keep in mind that there is a committee, not a standing senate committee, that's charged with reviewing the health benefits each year and recommending changes. This committee has a designated Faculty Senate spot which, unfortunately, has not been filled for at least a couple of years because no senators were willing to take that seat. So, there is an avenue for participation, but we're not actually using it.

<u>Shrinking staff support</u>. This was also raised last year. It's something that we could explore more.

<u>Budget</u>. A long-standing issue. The University Budget and Finance Committee went idle for a while. However, last year, efforts were reinvigorated under the leadership of the chair. So, there is renewed activity there, that's going to continue this year.

<u>Flexwork policy</u>. President Green has requested that senate works on this issue. It will be charged to FSPG once they have elected their chair.

<u>Clinical tenure</u>. We may have limited flexibility with this. Also, some significant changes in state board policy relevant to this are expected to come within the next few months. <u>Faculty control of APM items</u>. A significant issue to be explored.

Security. Addressed in the next agenda item.

Parking. It's a statewide problem. Not much success.

<u>Multi-year contracts for clinical faculty</u>. This is closely tied in with state board policy. <u>Faculty input on classroom location</u>. This was raised last year. There were some initial discussions, but we did not actually assign this to a committee, as we ran into some administrative roadblock.

<u>Advising</u>. The proposal from the Advising Committee was not approved by the president last May. Something to revisit.

<u>Childcare</u>. Blaine Eckles came to the senate last year to give a significant overview of what's going on in that area. This was initially a Moscow issue that has now become a statewide issue. We may revisit it.

Grade rollout time. There was no action on that.

<u>Public school calendar</u>. It's not as simple as the Moscow School District aligning their calendar with U of I. It would have to be a decision of all public schools in the state.

Discussion

The health benefit issue may have resolved itself. Premiums for state employees have gone up by 8.8%.

There were no other comments or questions.

Motion to approve the list as is (Barannyk, Thorne).

Discussion on the motion

In response to a question, Tim said that the adopted priorities will be referred to appropriate committees. Some already are with committees. For those that don't have a home, they will talk about establishing ad hoc committees.

Vote: 22 yes; 1 no. Motion carries.

• Ad Hoc Committee on Campus Safety and Security (vote) – Kristin Haltinner, Senate Vice Chair.

Kristin gave a brief review from last week's presentation. The committee's charges include assess security concerns, review security practices at other institutions, liaise with campus security and other university offices to improve and innovate, develop a white paper and/or data driven policy and practice guidelines for the university and employees to improve safety and security on campus.

Discussion

A senator is especially concerned about the safety of staff and instructors against students' threats and aggressions.

The Dean of Students Blaine Eckles said that his office is working on gathering data, which is typically based on reports that come in. There is also a standing threat assessment committee, that meets every two weeks, and as needed when we have an emergency. We met at the beginning of the semester. Dean Eckles is co-chair of that committee along with Steve Mills. They do extensive training on threat assessment and would be happy to come and give an overview of the committee's activities.

Should there be a standing committee for all locations in the state? A senator pointed out that the building on the Idaho Falls campus is owned by Idaho State University. The (formerly known as) Center for Advanced Energy Studies is also owned by Idaho State. This could affect policy changes.

Motion to create the ad hoc Committee on Safety and Security (Tohaneanu, Barannyk). A senator asked how the committee will be populated. Kristin said they will seek volunteers. A call will go out with the next Talking Points.

Vote: 18 yes; 4 no. Motion passes.

APM 45.17 Fixed-Price Sponsored Projects
 Motion to postpone (Haltinner, Long) to next week.
 Vote: 22/22 yes

Adjournment

The meeting was adjourned at 4:54pm

Respectfully Submitted,

Francesca Sammarruca

Secretary of the University Faculty & Secretary to Faculty Senate

1. **Policy/Procedure Statement:** Briefly explain the reason for the proposed change.

The purpose of this change is to modify the section that restricts the university from having a residual fund balance greater than 10% of the total sponsored project price. By removing this restriction, the university can price fixed-price sponsored projects, when allowed by the sponsor, at a level the sponsor deems valuable. This may result in a residual balance exceeding 10%. If the sponsor is satisfied with the agreed-upon price, the university should be able to receive that amount, even if it leads to a residual balance greater than 10%. The changes to this APM are intended to align with a new approach of value-based pricing that would increase residuals while pricing at a level satisfactory to the sponsor.

2. Fiscal Impact: What fiscal impact, if any, will this change have?

The revised policy is expected to have no immediate, negative fiscal impact. However, it could result in a positive impact in the form of increase residuals.

Related Policies/Procedures: Describe other UI policies or procedures related or similar to this proposed change, or that will be impacted by it.

This change may impact related procedures on Effort Reporting (APM 45.09) and compliance with federal regulations such as 2 CFR 200 Subpart E- Cost Principles and 2 CFR 200 Subpart F- Audit Requirements.

4.	Effective Date: This policy shall be effective on July 1, or January 1, whichever arrives first after final approval (see FSH 1460 H) unless otherwise specified.

45.17 Fixed-Price Sponsored Projects

- **A. Purpose.** This document states University policy on, and provides associated procedures for, the actions to be taken upon the completion of externally funded fixed-price sponsored projects, especially when such sponsored projects are concluded with a residual cash balance.
- **B. Scope.** This policy applies to all fixed-price sponsored projects, except for federal and federal flow-through fixed-price awards and subawards. These are awarded under the Federal Acquisition Regulation, and their administration is governed by those regulations. This policy applies to all fixed price sponsored projects.

C. Definitions

- **C-1. Fixed-price sponsored project.** A fixed-price sponsored project (also known as a firm-fixed-price, firm-price, fixed-price contract/grant) requires a recipient to perform the work necessary to produce deliverables (i.e., services or property) as specified in the agreement for an established dollar amount and, usually, within a defined time frame. Under such an agreement, the funding is not subject to adjustment on the basis of the recipient's actual expenditures in performing the sponsored project. Payment for performance of the sponsored project remains constant despite the actual costs associated with the work required to fulfill the terms of the agreement, including any overages or underages.
- **C-2. Residual funds.** Residual funds are the monies remaining at the completion of a fixed-price sponsored project after all costs incurred in performing the work and fullfilling the deliverables in the agreement have been paid and all payments have been received.
- C-3. Significant residual fund balance (or significant balance). A significant residual fund balance is defined by the University as residual funds equal to or greater than 10% of the total sponsored project price.

D. Policy

D-1. When to use a fixed-price agreement. A fixed-price agreement mechanism offers benefits to both project sponsors and Principal Investigators (PIs). Because the final cost of a product or service provided under a fixed-price sponsored project is established and accepted prior to the performance of the sponsored project, a project sponsor is relieved of the risk that its cost for the deliverable(s) identified in the agreement may exceed its expectations and budget. PIs, as recipients of a fixed-price sponsored project, perform under a minimal administrative burden, which is delimited primarily by the periodic reporting on progress toward any defined benchmarks. In most circumstances if the costs incurred to complete the project are less than the price paid by the sponsor for the performance of the agreement, the recipient institution retains the difference. In cases where a sponsor imposes a restriction on residual funds, the University will be obligated to comply with the terms and conditions in the fixed-price agreement

D-2. Considerations for all fixed-price sponsored projects

a. Compensation. The University must ensure that it is properly compensated for all allowable direct and indirect costs incurred under a fixed-price agreement, but due to the University's status as a non-profit entity it should also avoid generating a residual balance. The University should also consider the appearance of having an unfair competitive advantage over for-profit businesses in determining pricing for fixed-price agreements. Entering into a fixed-price

agreement for deliverables intended for the direct benefit or use of the sponsor may also make the University appear to have an unfair competitive advantage over for profit businesses providing the same or a similar product or service at a higher cost.

- **b. Unrelated Business Income Tax (UBIT) review.** If the University receives funds for work that is regularly undertaken for the benefit of a sponsor and that is not consistent with the research, education, other sponsored activity, instruction, or public service mission of the University as a non-profit institution, the Internal Revenue Service may declare these funds to be unrelated trade or business income and therefore subject to unrelated business income tax. The Office of Sponsored Programs (OSP) shall consult with Business and Accounting Services regarding any agreement that has UBIT potential.
- **c. Federal requirements**. The University must ensure observance of the terms and conditions of the sponsored projects; consistently apply established cost principles and accounting standards; and fulfill its obligations under federal and state compliance and audit regulations. 2 CFR Part 200 Subpart E Cost Principles and 2 CFR Part 200 Subpart F Audit Requirements. Among the laws that inform University contracting policy is the Anti-Kickback Act of 1986. Consistent with this statute, the University prohibits any employee from soliciting, accepting, or attempting to accept a kickback—money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided, directly or indirectly, for the purpose of improperly obtaining or rewarding favorable treatment in relation to a sponsored project involving federal funds. See Anti-Kickback Act of 1986.

Compensation principles established by the federal government require that salary on sponsored programs be expressed in relation to the entirety of an individual's professional effort. 2 CFR 200.430. The University demonstrates its conformance to these compensation principles, ensuring that compensation for sponsored programs accurately reflects the effort expended, by requiring the periodic verification of effort for all non-temporary help employees with salary directly charged or cost shared to externally funded sponsored programs. See APM 45.09 Effort Reporting. The University, therefore, requires that faculty or staff report effort on a fixed-price sponsored project when they have salary charged or committed as cost sharing to it. If no salary is charged or cost shared to the fixed-price sponsored project, the effort put toward the performance the sponsored project is part of the total activities in which an employee has engaged in (and is compensated for) as part of their university appointment.

d. Tracking of expenditures. The University must document project expenditures under a fixed-price sponsored project in order to show that sponsor funds have been used as specified by the agreement and that costs are fully and properly expensed. If unable to adequately demonstrate during the course of an audit that sponsor funds were used in the manner allowed by the agreement and applicable policies and regulations, project costs may be disallowed and the University required to return them to the sponsor. Repeated audit findings related to fixed-price sponsored projects may compromise the ability of the University to enter into these agreements with state and federal agencies.

E. Procedure

E-1. Pre-award review and approval. All sponsored project proposals, including proposals for fixed-price sponsored projects, must be presented by the Principal Investigator to the Office of Sponsored Programs for review of the proposal materials,

terms and conditions, and assessment of the proposed project budget and scope of work prior to submission to the sponsor. The project budget should take into account all direct and indirect costs associated with the performance of the project and should include sufficient detail to make accurate accounting practicable. The agreement must be approved and signed by the individual with signature authority for such documents.

- **E-2. Closeout of fixed-price agreements.** Upon completion of the work to be performed under a fixed-price contract/grant, the PI must provide the following information to the Office of Sponsored Programs:
 - Substantiation that all work required under the contract/grant has been completed
 - Confirmation that no outstanding expense items remain open or in question with the sponsor and that all allocable and allowable costs have been charged to the project funding
 - Certification that all required deliverables and reports have been provided to and accepted by the sponsor

The final account balance will be determined only after the final payment from the sponsor has been received, all salaries and outstanding invoices have been paid, and all F&Aindirect costs have been recovered by the University.

E-3. Contract/grant closeout with residual funds. In the event that the PI completes the required work for less than the agreement price, the PI may request that the project account be closed and the residual funds be distributed to the college or nonacademic unit in which the PI is a member. These residual funds are considered deferred revenue of the University, and F&Aindirect costs and unrelated business income tax (if applicable) will be assessed against them prior to their distribution. The sponsored project account will be closed only after the transfer of the residual funds. A unit receiving such funds may use them for any permissible use in support of the research, education, or public service missions of the University.

If there is significant residual fund balance at the completion of work for the sponsored project (i.e., an amount greater than or equal to 10% of the sponsored project price), the PI must provide a written explanation for the substantial discrepancy between the expenses needed to perform the sponsored project and the costing that led to the sponsored project price. This explanation should be supplied by the PI to the Office of Sponsored Programs, which will use it along with the information that the PI is required to provide upon closeout of the agreement (section E=2) as the basis for an audit of the project. Residual funds will be distributed to the college or non-academic unit of the PI upon the satisfactory conclusion of the audit and per the distribution allocation as approved of the Vice President for Researchor their designee.
