

Program Overview

Northwest
Youth Financial
Education

This is Max! Max has lots of things on his To Do list! Let's follow him around and see what he's up to today! Help your students learn about coins and the different things that can be bought with them. This program also helps students implement simple addition and subtraction while using money. By helping Max make all the purchases, your students will become money savvy.

Program Features

- Designed for children ages 4-10
- Free to download and use
- Target concepts: Coins, expenses, addition, and subtraction
- Extra teaching resources (Downloadable)
