

Specialized Communities

Pre-Health Floors

Pre-Health Professions in the Residence Halls:

Combining on-campus living with your academic program has never been easier than with specialized communities. Enjoy specific programming and the convenience of having other Pre-Health Program students living right next door.

- Make friends and become part of a community where students share common academic and extracurricular interests.
- Get acquainted with and learn from Pre-Health students, faculty and college staff during our floor events and activities.
- Increase your academic success. Gain access to our student success initiatives and resources available to you as a student in the Pre-Health Professions Program.
