

Specialized Communities

WiiSE Floor

The WiiSE Hall gives students the opportunity to live, learn and experience college in a community passionate about education for women in science, technology, engineering and mathematics (STEM). Living in a community with other students in similar programs can be extremely rewarding. Your floor will be filled with like-minded students who share similar interests and classes.

Get connected to female faculty and students from different STEM disciplines. This community features WiiSE specific programming where students form lifelong friendships and networks. You will have a Resident Assistant majoring in a STEM discipline living in the hall to help connect you to great resources and the college.

WiiSE Hall Features:

- Vandal Edge Program (focused on first-year involvement)
- Common lounge spaces & two private study rooms
- Internet, laundry, mini-fridge, and microwave included in rooms
- Computer lab with printing access
